

Internship Evaluation & Reporting

Thank you for taking the time to complete this form, this evaluation will be used to assess the student's participation in the internship program.

Supervisors, using the form below please evaluate the student who interned with your organization, institution, or business. You can fill out this form electronically or you can fill it manually but eventually it must be signed and stamped from the company's side.

Please note that part I & III should be completed by the intern, part II should be completed by the direct supervisor in the company.

Part I. GENERAL INFORMATION - STUDENT'S INPUT

Student Info:

Student Name: Samwel Shahir Roufaeil GUC Student ID No.: 43-11244

Faculty: Engineering Major: Media Engineering and Technology (MET)

Student Mobile No.: 01060028022

Internship Info:

Company Name: Levelset (zLabs)

Core Industry/Business: Construction & Software Country: USA & Egypt

Supervisor Name: Abdelrahman Assem Supervisor Job Title: Engineering Manager

Supervisor Tel. No.: _____ Supervisor Mobile No.: 01005001616

Supervisor E-mail: abdelrahman@levelset.com Training Department(s): Development

Source of internships: (1) SCAD office (2) on my own (3) Referrals from GUC TA/Dr. ☒ Recruitment website (5) others:

Work Place: (1) Organization (2) Head Office (3) Branch (4) Factory (5) Site ☒ Others:

Hybrid (office + Remote)

Part II. EVALUATION AND COMMENTS - DIRECT SUPERVISOR'S INPUT

Period of Internship (dd/mm/yyyy)

(dd/mm/yyyy)

From: 04 / 07 / 2021

To: 30 / 09 / 2021

Internship nature (Enrollment Status)

€ Part time Please specify, no. of Days per week: _____ hours per day: _____

€ Full time Please specify, no. of Days per week: 5 hours per day: 8

Overall Evaluation of Student's performance and profile					
Unsatisfactory	Improvement needed	Meets expectations	Exceeds expectations	Exceptional	NA
			●		

General Comments & Recommendations: (kindly mention intern potentials, areas of further development or technical constraints encountered during the internship period)

Samuel demonstrated technical excellence throughout the internship by delivering the planned work and working collaboratively with the team to get things done on time. He showed a really good contribution to the product by working on full-stack features that required frontend and backend technologies and high ownership by doing his best to unblock himself and asking the right questions to the right people.

	Yes	No	Maybe

Part III. INTERNSHIP REPORT – STUDENT’S INPUT

- This report has to be prepared by the student, it must be prepared and written in a **computerized** format, submitting the report in hand written format will not be accepted.
- Kindly refer to the Internship Report writing Guidelines on the GUC intranet – SCAD office folder.
- This report will be reviewed and evaluated from internal faculty members.

Internship Title: -----Software Developer Internship-----

Company / Organization Name: -----Levelset (formerly zLabs)-----

Introduction:

This report aims to briefly describe my internship as a software developer at Levelset (formerly zLabs), including a description of the organization, a brief explanation of the performed tasks, and an evaluation of the internship. Before we go through the details of the report, I would like to explain the reason behind choosing the full-stack web developer position at Levelset. During my study at the GUC, I have been introduced to a wide range of topics and technologies related to software engineering, both in the back-end and front-end technologies. Thus, I was well prepared to be enrolled in such a position. Even more, I chose Levelset specifically because they don’t only develop regular systems but also they develop what is called Massively Scalable Apps (MSA), which introduced me to a whole new paradigm in web development beyond what I knew back then.

Company / Organization Description:

Founded by Scott Wolfe in 2007, Levelset helps contractors and suppliers get payment under control. Contractors and suppliers connect on Levelset's cloud-based platform to make payment processes stress-free. Users easily exchange payment documents like lien waivers, pay applications, and preliminary notices. They see a complete picture of who is on their job and are empowered with the resources and knowledge they need to be confident in payment. On September 22nd, 2021, Levelset was acquired by Procor. Procore agreed to acquire Levelset for a purchase price of approximately \$500 million, which consisted of approximately \$425 million in cash, subject to customary adjustments for working capital, transaction expenses, cash and indebtedness, and approximately \$75 million in Procore common stock. Levelset has 3 main offices in New Orleans, Austin, and Cairo, where Cairo’s Office is mainly for development teams.

Internship Performed Tasks:

During the first week of the Internship, I had a walk-through of the whole project including the business aspects and Software technologies used in the system, where I was given multiple videos to watch and had daily 1-1 meetings to discuss these aspects. After the first week, I joined a sub-team in which I was initially assigned three tasks, that I worked closely with one of the senior developers on the team to have a better understanding of the system and to interact with all the technologies used in the sub-project including PHP, MySQL, neo4j, MongoDB, rabbitMQ, and React.js. Afterward, I was regularly assigned tasks that I worked on my own and evaluated by my mentor and senior developers on the team. Even more, I participated in the weekly standup to update the team on my current work status.

Internship Evaluation:

During the internship period, I have experienced a lot of events that happen on daily basis in companies. On Each day of the internship period, I gained something new. Either new information, knowledge, skills, or even ew relations with other people. Communication was one of the skills that significantly improved during my internships as I had to communicate daily with different cultures, ages, and beliefs. This internship was insightful, as I discovered a whole new world in web development that I did not know about

before that internship and motivated me to choose the Massively Scalable Apps course in my 10th semester in the GUC to keep improving and learn more in such a paradigm. In general, My Internship at Levelset exceeded my expectation and definitely will have a major effect on my career path.

Conclusion:

In conclusion, I have benefited from this internship experience, gained a lot of skills, and had a significant effect on my personal and career aspects. I have also made practical applications of what I have studied in the GUC in real life and learned new things during my time at levelset in all aspects like communication, work ethics, technologies, and an understanding of how the companies work. Finally, I have also seen a clearer view of the companies' environment and careers which would help me in the future decide my career path. I was lucky enough to observe how Massive Scalable Apps are created and participate in doing so.

Please rate your satisfaction with the internship experience.

☒ Very satisfied ☐ Somehow satisfied ☐ Neutral ☐ Somehow dissatisfied ☐ Very dissatisfied

Would you recommend this internship to other colleagues?

☒ Yes ☐ No ☐ Maybe

Experience Certificate

To Whom It May Concern,

This is to certify that Mr. Samuel Roufaeil has been working at zlabs since 4 July 2021 and to 30 September 2021. Mr. Samuel Roufaeil was working as a Software Development Intern, where he worked for 40 hours per week.

We wish him all the best in her future endeavors.

Best Regards,

Yasmine George
Associate Director of People Ops
zlabs
