

## Internship Evaluation & Reporting

Thank you for taking the time to complete this form, this evaluation will be used to assess the student's participation in the internship program.

Supervisors, using the form below please evaluate the student who interned with your organization, institution, or business. You can fill out this form electronically or you can fill it manually but eventually it must be signed and stamped from the company's side.

Please note that part I & III should be completed by the intern, part II should be completed by the direct supervisor in the company.

### Part I. GENERAL INFORMATION - STUDENT'S INPUT

#### Student Info:

Student Name: Moustafa Sallam

GUC Student ID No.: 43-13821

Faculty: Engineering

Major: M.E.T

Student Mobile No.: 01144033735

#### Internship Info:

Company Name: Areebah for Information Technology

Core Industry/Business: IT Systems Integrator Country: Egypt

Supervisor Name: Khaled Adel Mahmoud

Supervisor Job Title: Head of S.W Infra Solutions

Supervisor Tel. No.: 01272888825

Supervisor Mobile No.: \_\_\_\_\_

Supervisor E-mail: Kadel@areebah-me.com

Training Department(s): S.W Infra Solutions

Source of internships: (1) SCAD office (2) on my own (3) Referrals from GUC TA/Dr. (4) Recruitment website (5) others: \_\_\_\_\_

Work Place: (1) Organization (2) Head Office (3) Branch (4) Factory (5) Site (6) Others: \_\_\_\_\_

### Part II. EVALUATION AND COMMENTS - DIRECT SUPERVISOR'S INPUT

Period of Internship (dd/mm/yyyy)  
From: 1/7/2020

To: 6/8/2020

Internship nature (Enrollment Status)

€ Part time Please specify, no. of Days per week: \_\_\_\_\_ hours per day : \_\_\_\_\_  
✓ € Full time Please specify, no. of Days per week: 5 hours per day : 8

## HIP REPORT – STUDENT’S INPUT

**Internship Title:** Data Science Intern

**Company / Organization Name:** Areebah for Information Technology

### Introduction:

The major goal of my internship, according to the following report, was to improve my technical skill in the MERN stack, especially MongoDB. I specifically chose Areebah for Information Technology because of their reputation as an upcoming software company. Areebah is an upcoming company based in Egypt for software solutions. The following report is divided into 4 parts, a brief description about the company and what tasks I performed and my evaluation and conclusion.

### Company / Organization Description:

Since 2008, AREEBAH has been a prominent provider of IT services and digital solutions to the Egyptian digital technology sector. The company has worked with a variety of industrial sectors, including banking, government and public sector, oil and gas, telecommunications and manufacturing, and the commercial sector, to give the optimal available services and solutions. The Areebah company has always been an upcoming IT company that offers solutions to organizations and government entities .

### Internship Performed Tasks:

During the 2 weeks of the internship I took courses about database optimization and implementing a database infrastructure using MongoDB. The choice for MongoDB was primarily for the reason it is a relatively simple type of database, non-relational, that would appeal to beginners. Optimizing the database infrastructure was performed by drawing the infrastructure as if it was a relational database and for every relation and entity was a table or cluster created. By creating more tables lookups would be much faster and relatively no joins in tables will be needed, which is computationally expensive. Hence better performance of the Database.

### Internship Evaluation:

In the time I spent in that internship there were countless skills that were added to my repertoire. Most notably technical skills, I had to work for two months using entirely frameworks that I was never familiar with before, but taught in the GUC in the 7th semester. This helped me to dig into said frameworks and try to understand how they work in order to reach the desired outcome, and for an added bonus I received a great grade of A + in said course offered in the GUC. Moreover, soft skills workshops such as designing and presenting a presentation as well as teamwork were hosted to better coordinate my train of thought with the other interns. Overall, I would say that the internship was an experience that helped increase my technical and soft skills.

## Conclusion:

To sum up, I've learned that Areebah Information Technology offers the type of technical job that I'd like to be a part of. I feel that someone with my knowledge and experience would find success and progress in their environment, given their emphasis on technical expertise and a wide range of current technology applications. Also, I feel that Areebah Information Technology is a dark horse in today's market that has a lot of promise and operates in industries that are both necessary and rising globally. Finally, I would like to say that the internship was informative and professional.

Please rate your satisfaction with the internship experience.

\* Very satisfied ☐ Somehow satisfied ☐ Neutral ☐ Somehow dissatisfied ☐ Very dissatisfied

Would you recommend this internship to other colleagues?

\* Yes ☐ No ☐ Maybe
