

## Internship Evaluation & Reporting

Thank you for taking the time to complete this form, this evaluation will be used to assess the student's participation in the internship program.

Supervisors, using the form below please evaluate the student who interned with your organization, institution, or business. You can fill out this form electronically or you can fill it manually but eventually it must be signed and stamped from the company's side.

Please note that part I & III should be completed by the intern, part II should be completed by the direct supervisor in the company.

### Part I. GENERAL INFORMATION - STUDENT'S INPUT

#### Student Info:

Student Name: Mohammed Elhab GUC Student ID No.: 43-11068  
 Faculty: Media Engineering & Technology (MET) Major: Computer Science & Engineering (CSE)  
 Student Mobile No.: 01200918991

#### Internship Info:

Company Name: AREEBAH  
 Core Industry/Business: Technology Country: Egypt  
 Supervisor Name: Hassan Abd-El Halim Supervisor Job Title: Managing Director at AREEBAH Information Technology  
 Supervisor Tel. No.: 01003409360 Supervisor Mobile No.: 01003409360  
 Supervisor E-mail: hassan.ibrahim@areebah-me.com Training Department(s): \_\_\_\_\_  
 Source of internships: (1) SCAD office (2) on my own (3) Referrals from GUC TA/Dr. (4) Recruitment website (5) others:  
 Work Place: (1) Organization (2) Head Office (3) Branch (4) Factory (5) Site (6) Others:

### Part II. EVALUATION AND COMMENTS - DIRECT SUPERVISOR'S INPUT

Period of Internship (dd/mm/yyyy) (dd/mm/yyyy)  
 From: 4 / 4 / 2021 To: 8 / 8 / 2021

Internship nature (Enrollment Status)

- ☒ Part time Please specify, no. of Days per week: 5 hours per day : 4  
☐ Full time Please specify, no. of Days per week: \_\_\_\_\_ hours per day : \_\_\_\_\_

Company Stamp

For SCAD internal use only

**General Comments & Recommendations:** (kindly mention intern potentials, areas of further development or technical constraints encountered during the internship period)

Mohamed showed potential in collecting data / research data skills during the internship. He was also a fast learner and very organized in his work which allowed him to creatively bring up new ideas and apply them to his work.

Yes      No      Maybe

Do you think similar candidates would fit in the Organization culture and qualify for job needs?

### Part III. INTERNSHIP REPORT – STUDENT'S INPUT

- This report has to be prepared by the student, it must be prepared and written in a **computerized** format, submitting the report in hand written format will not be accepted.
- Kindly refer to the Internship Report writing Guidelines on the GUC intranet – SCAD office folder.
- This report will be reviewed and evaluated from internal faculty members.

**Internship Title:** AREEBAH Internship

**Company / Organization Name:** AREEBAH

**Introduction:** (Not less than 100 words) (should depict the main purpose of the report, covering the objective out of performing this internship in this industry/company specifically then cover the outline for the report's structure)

**Company / Organization Description:** (Not less than 100 words)

**Internship Performed Tasks:** (Not less than 100 words)

**Internship Evaluation:** (Not less than 100 words) (This section should answer the following questions in the form of a paragraph)

What skills do you think that you have gained from the internship? Did the internship meet your expectations? If not, please explain why? How do you think the internship will influence your future career plans? How do you think the internship activities that you carried out are correlated with your studies? Which of the academic courses that you have taken in GUC were the most related to your internship?

**Conclusion:** (Not less than 100 words) (A summary of key conclusions derived from the internship experience, general observations about the sector in which your internship company/institution operates)

Please rate your satisfaction with the internship experience.

☒ Very satisfied      ☐ Somehow satisfied      ☐ Neutral      ☐ Somehow dissatisfied      ☐ Very dissatisfied

Would you recommend this internship to other colleagues?

☒ Yes      ☐ No      ☐ Maybe

**References:** (If any external sources are used, provide references for any information quoted)

**Appendices:** (Upon availability, charts, pictures, etc.)

### Disclosure / Confidentiality Agreement

This agreement is to acknowledge that the information provided by any company / organization during the internship is unique to this business and confidential.

Therefore, anyone reading this agreement agrees not to disclose any of the information provided during the internship without notifying & taking the employer's / supervisor's approval.

**Internship Title:** AREEBAH Internship

**Company / Organization Name:** AREEBAH

**Introduction:** (Not less than 100 words) (should depict the main purpose of the report, covering the objective out of performing this internship in this industry/company specifically then cover the outline for the report's structure)

This report serves as a summary of my internship experience at AREEBAH. The report is divided into 5 main parts with each one consisting of at least 100 words each. These parts are as follows: Introduction, Company / Organization Description, Internship Performed Tasks, Internship Evaluation, and Conclusion. AREEBAH offers a multitude of business services to its clients, as discussed in detail later in the Company / Organization Description section. Some of these services are the development and integration of Robotic Process Automation (RPA) and cybersecurity services such as Security Operations Center (SOC) services that can be outsourced, insourced, or a hybrid of the two. My objective out of performing this internship in AREEBAH was to gain experience and knowledge in these fields as they are important fields in the future of computer science.

**Company / Organization Description:** (Not less than 100 words)

AREEBAH was established in 2008. AREEBAH offers their clients knowledge and expertise in the fields of Information Technology (IT) services and Engineering Solutions. AREEBAH's selection criteria for products is based on technology and product advances, customer business needs, and good value for money, as stated in their company profile. AREEBAH specializes in a wide array of technological fields, which are sectioned into Infrastructure Solutions (Network Solutions, Security Solutions), Cybersecurity & Managed Security Service Provider (MSSP) (Cybersecurity Risk Management, Cybersecurity Managed Services, Cybersecurity Training & Awareness), Digital Transformation (RPA Business Process Automation, RPA Digital Solutions, RPA Consultancy & Professional Service), and Learning & Professional Services (Technology Support Services, IT Consulting Services).

**Internship Performed Tasks:** (Not less than 100 words)

I worked with AREEBAH's Robotic Process Automation (RPA) branch of services during my internship at the company. AREEBAH offers the development of RPA POC under their Try & Buy policy, which allows customers to test AREEBAH's Robotic Process Automation Proof of Concept services before buying to prove the compatibility of the automated software with the customer's business and required tasks to be handled. Usually, these POCs will require additional fine-tuning to fit the needs of the customer better, but they serve as rough drafts of what the customer can expect in return for their business with AREEBAH. RPA software usually tries to mimic human interactions with different digital sources, one example of an RPA is a bot that automates some gathering of information into a spreadsheet for later use by a human employee or possibly another RPA.

**Internship Evaluation:** (Not less than 100 words) (This section should answer the following questions in the form of a paragraph) What skills do you think that you have gained from the internship? Did the internship meet your expectations? If not, please explain why? How do you think the internship will influence your future career plans? How do you think the internship activities that you carried out are correlated with your studies? Which of the academic courses that you have taken in GUC were the most related to your internship?

I have gained a multitude of skills from this internship and formed a better understanding of Artificial Intelligence (AI) and Machine Learning (ML) in technical fields, which are both subjects I'm passionate about. I would say the internship exceeded my expectations, and working so closely with automated software will certainly influence my future career plans and skew them towards the respective fields of Artificial Intelligence (AI) and Machine Learning (ML). The activities carried out in this internship were very closely related to my studies at GUC, especially the Introduction to Artificial Intelligence (CSEN 901) and Machine Learning (CSEN 1022) courses.

**Conclusion:** (Not less than 100 words) (A summary of key conclusions derived from the internship experience. General observations about the sector in which your internship company/institution operates)

In conclusion, I see my experience at AREEBAH to be very valuable, not only for my future career plans but also for personal use with automating tasks and putting my computer science knowledge into practical uses. AREEBAH taught me indispensable skills in the fields of Information Technology (IT), Artificial Intelligence (AI), and Machine Learning (ML), all of which are very important fields for computer scientists and fields I have taken special interest in during my university studies. However, just interning at AREEBAH also gave me general knowledge about other highly sought-after services the company provides, such as Cybersecurity services, Infrastructure & Network Solutions, IT Consulting Services, and more.
