

Internship Evaluation & Reporting

Thank you for taking the time to complete this form, this evaluation will be used to assess the student's participation in the internship program.

Supervisors, using the form below please evaluate the student who interned with your organization, institution, or business. You can fill out this form electronically or you can fill it manually but eventually it must be signed and stamped from the company's side.

Please note that part I & III should be completed by the intern, part II should be completed by the direct supervisor in the company.

Part I. GENERAL INFORMATION - STUDENT'S INPUT

Student Info:

Student Name: Rawan Ahmed Elkhady GUC Student ID No.: 43-5263

Faculty: Engineering Major: MET

Student Mobile No.: 01100849414

Internship Info:

Company Name: Eshra7ly Online For Programming and Educational Services

Core Industry/Business: Programming Country: Egypt

Supervisor Name: Ismail H Badawy Supervisor Job Title: Head of Technical Department

Supervisor Tel. No.: _____ Supervisor Mobile No.: 01126580097

Supervisor E-mail: ismailbadawy.w@gmail.com Training Department(s): Technical Department

Source of internships: (1) SCAD office (2) on my own (3) Referrals from GUC TA/Dr. (4) Recruitment website (5) others:

Work Place: (1) Organization (2) Head Office (3) Branch (4) Factory (5) Site (6) Others:

Part II. EVALUATION AND COMMENTS - DIRECT SUPERVISOR'S INPUT

Period of Internship (dd/mm/yyyy)

From: 01/07/2020

(dd/mm/yyyy)

To: 01/10/2020

Internship nature (Enrollment Status)

☐ Part time Please specify, no. of Days per week: _____ hours per day : _____

☒ Full time Please specify, no. of Days per week: 5 hours per day : 8

Part III. INTERNSHIP REPORT – STUDENT’S INPUT

Internship Title: Full Stack Development Intern

Company / Organization Name: Eshra7ly Online for Programming and Educational Services

Introduction:

This report aims to cover my internship duration, including the tasks that I've performed in addition to my general evaluation filled by my immediate supervisor to the whole internship period. It also provides information about the work environment and the organization atmosphere. Before I go into any details, I want firstly to introduce the reason why I have joined Eshra7ly. Since in Media Engineering Technology we are taught web development for 2 courses so far, so this is considered a part of study. Thus, a company that has a full stack position was a suitable place to apply our theoretical studies and courses to real-life careers and situations. I have been to Eshra7ly specifically because of the opportunity I had, in addition to the great cause of this company and what it does. Through this report, tasks I've performed there as an intern during the internship period will be mentioned as well as my evaluation for experience and finally a conclusion to summarize the whole point of the report.

Company / Organization Description:

Eshra7ly is a complete online learning system. The system includes students, parents, and teachers which means that every stakeholder in the educational system is included and informed. Eshra7ly has been in business for more than 8 years and every year their number of students is increasing, their variety of courses is expanding, and they'll never stop until they make sure that all their students have the best chance of succeeding. Since IGCSE students in Gulf countries struggle to find good teachers with reasonable prices, Eshra7ly offers both. Instead of spending lots of time struggling to find the right place and educational center for students to attend their classes, Eshra7ly offers the best teachers and at the comfort of their home.

Internship Performed Tasks:

The first few days of the internship period I had to go through a training process of learning the new technologies that I have not had background to. The very first task I had to do was to update the database in order to add the parents' users to the website using Typescript that I had to learn before starting the task. One of main task I had to do was to update some frontend pages of the websites. As well as, updating the backend in order to limit the number of logins for each student to limit multiple students using the same account to prevent students from attending a session they did not pay for. We implemented that using a QR code for each student that he can scan only using his mobile phone after logging in, as each student has only one login chance from his mobile phone.

Internship Evaluation:

During the internship period, I have experienced a lot of events that happen on daily basis in companies. On each day of the three months period, I gained something new. Either new information, knowledge, skills, or even new relations with other people. Researching was one of the skills I learned there as I was working from home and meetings were very limited, and I faced a lot of issues that I did not have anyone to ask about, so I had to search online to find the solution. The internship has exceeded my expectations. It will influence my future career plans as I thought about pursuing this career job for a while, but I have not made up my mind yet. In my faculty, we already have learned web development. We took the advanced computer lab course as well as the software engineering course that encouraged me to apply for this position as my bachelor's internship.

Conclusion:

In conclusion, I have benefited from this internship experience and gained a lot of skills from it. I have also made practical application of what I have studied in the GUC in real life and seen how companies work. Finally, I have also seen a clearer view of the companies' environment and careers which would help me in the future decide the career path I want to pursue. I have observed the performance of the company and this position and how their work cycle run. I was lucky enough to observe how full website is developed starting from their first webpage to the very last and connecting the pages with each other.

Please rate your satisfaction with the internship experience.

☐ Very satisfied

Would you recommend this internship to other colleagues?

☐ Yes
