Internship Title: Trainee Software Development

Company / Organization Name: Digi360

Introduction: This report will cover everything that has to do with my internship at Digi360, where I learned many things. Seeing as to why I applied for this internship, it was to get experience in real-life work. as I have none. I chose Digi 360 because I always admired software solutions for automation and fixing on ground businesses. and the fact that I like software development, the report consists of first the company description, then the preformed tasks then the Internship evaluation, moving on to the conclusion

(Not less than 100 words) (should depict the main purpose of the report, covering the objective out of performing this internship in this industry/company specifically then cover the outline for the report's structure)

Company / Organization Description: Digi360 is a sister company of Ibn sina pharmaceutical, that makes all the software solutions for Ibn sina and its sister companies, alongside incubating of projects

Internship Performed Tasks:

- various tasks into the creation of an E-Commerce website
- Research Flutter
- Inspecting and debugging multiple flutter projects
- Research PostgreSQL
- creation of multiple queries using PostgreSQL
- Research into Power BI
- using the queries mentioned before in Power BI to illustrate them into graphs and such
- Research and reporting other Technologies

 (Not less than 100 words)

Internship Evaluation:

During my internship at digi360, I learned many skills, including but not limited to how to adapt to change, how to work professionally, how to make professional reports, how to use Flutter professionally, how to debug in flutter, and how to work in a team professionally. I've learned how to work using the Agile Method. The internship met my expectations as I learned many new things and was surrounded by a very nice, helpful, and guiding team. This internship will influence my future career by giving me a head start into professional work, being ready for the next step, having a taste of the real world work environment, thus pushing me further in my career. The internship correlated to my studies as the university is always having us adapt to new things and work the best we can since things are not easy at the university. The courses that helped were SE, Networks, Networks labs, ACL, Databases I and Databases II.

(Not less than 100 words) (This section should answer the following questions in the form of a paragraph)

What skills do you think that you have gained from the internship? Did the internship meet your expectations? If not, please explain why? How do you think the internship will influence your future career plans? How do you think the internship activities that you carried out are correlated with your studies? Which of the academic courses that you have taken in GUC were the most related to your internship?

Conclusion: Throughout the internship, I set out to gain real-world professional experience and to learn a variety of new skills, and I have successfully achieved that goal, which includes software development technologies, database query creation, and data analysis. All in all, the experience was really great. I learned many new things, met great people, and had a taste of real-world work experience.
