Part III. INTERNSHIP REPORT – STUDENT'S INPUT

- This report has to be prepared by the student, it must be prepared and written in a **computerized** format, submitting the report in hand written format will not be accepted.
- Kindly refer to the Internship Report writing Guidelines on the GUC intranet – SCAD office folder.
- This report will be reviewed and evaluated from internal faculty members.

Internship Title: Software Engineer

Company / Organization Name: Klickit Solution

Introduction: (Not less than 100 words) (should depict the main purpose of the report, covering the objective out of performing this internship in this industry/company specifically then cover the outline for the report's structure)

Throughout my two months journey in Klickit Solution, I have gained great experience in the real world market. I was introduced to the most professional working environment and I was allowed to develop my skills. The company (Klickit Solution) taught me a lot about software solutions development, I was also allowed to learn more about digitalizing payment methods. Throughout my first month, we were introduced to .NET FRAMEWORK and remembering JavaScript basics. The other month was about implementing and project development as all of the interns were gathered under the supervision of professionals to combine the full experience between the learning process and the professional work real life.

Company / Organization Description: (Not less than 100 words)

As per the company, Klickit Solutions, it is an Egyptian company that aim to develop software solutions and development of a digitized payment process that encourage educational institutes to switch their payment methods into digital payment in order to improve their quality of work in a financial way. The Company aims to digitize all payment methods to E-payment or offline payment using Fawry, Vodafone Cash, MasterCard, and many more ways. Although this is an Egyptian company, it also has customers from all over the world that are hoping to improve their financial quality of work, this is a proof of how professional this company is.

Internship Performed Tasks: (Not less than 100 words)

Throughout my first month, I was given sessions about JavaScript basics to develop our skills, and then we were given online sessions about .NET FRAMEWORK that were very beneficial as our instructors were very helpful, they went through .NET FRAMEWORK architecture and history, we were also shown the professional working life and how they handle all the team work and their tasks. During the other month we were introduced to real projects and developing real tools to providers, as a team we were given Vodafone Cash to learn more about problem solving throughout the system and arranging our work in team work.

Internship Evaluation: (Not less than 100 words) (This section should answer the following questions in the form of a paragraph)

What skills do you think that you have gained from the internship? Did the internship meet your expectations? If not, please explain why? How do you think the internship will influence your future career plans? How do you think the internship activities that you carried out are correlated with your studies? Which of the academic courses that you have taken in GUC were the most related to your internship?

I have developed my software development skills throughout the two months journey, as well as my JavaScript skills. I have learnt a lot about .NETFRAMEWORK and its architecture. Our instructors were extremely helpful and patient and they had the passion to let us explore, search and learn. They taught us a lot about the real working life and how to deal with multiple tasks by passing to us the skills of time

management and work distribution among team members. Computer Science engineering courses helped us a lot throughout the internship, starting by problem solving (CS2 and CS3), coding and the programing languages that we have learnt.

Conclusion: (Not less than 100 words) (A summary of key conclusions derived from the internship experience. general observations about the sector in which your internship company/institution operates)

Throughout my short journey at Klickit Solutions, I learnt a lot about software developing, as well as learning a lot more about JavaScript and .NETFRAMEWORK software architecture. We have been introduced to real working life and enhancing my team working skills. I have also learnt about working on multiple tasks with the skill of time management. All the Computer Science Engineering courses have helped me a lot throughout my journey, as well as all my skills in projects management and team work that the German University in Cairo have introduced us to. I have learnt a lot throughout my journey.

Please rate your satisfaction with the internship experience.

✓ Very satisfied ☐ Somehow satisfied ☐ Neutral ☐ Somehow dissatisfied ☐ Very dissatisfied

Would you recommend this internship to other colleagues?

✓ Yes ☐ No ☐ Maybe
